

MoGenAI

AI Business Intelligence Engine

Upload any file. Understand your business in 90 seconds.

No analyst. No SQL. No configuration.

Mohit Tiwary · Solo Submission · May – July 2026

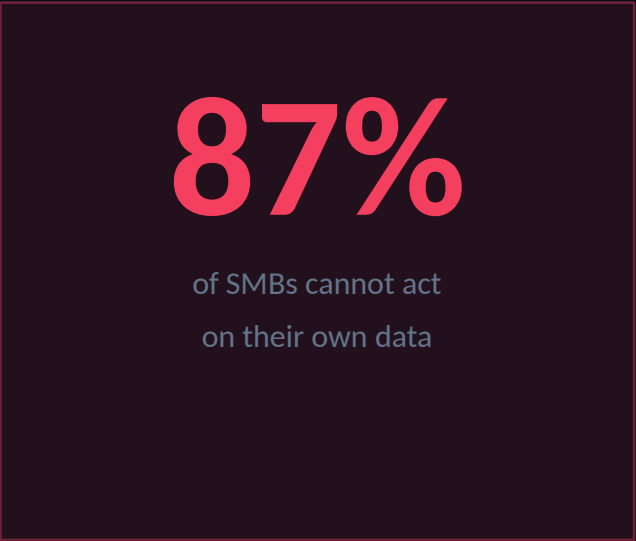

mogenai.ai

63 million businesses. Zero insights.

India's SMBs sit on mountains of data — sales sheets, invoices, customer records.

Yet 87% cannot extract a single insight from it.

Power BI / Tableau	Require analysts, IT teams & ₹50K+ licences
Excel pivot tables	Manual, error-prone, no AI layer
Hire a data analyst	Unaffordable for 95% of SMBs
Build in-house	Months of engineering, zero ROI

THE SOLUTION

MoGenAI.

Drop a file. Get intelligence.

Multi-format ingestion

CSV, PDF, DOCX, JSON, TXT — no setup

AI insight engine

Claude Haiku generates summaries + KPIs

Auto dashboards

Charts built automatically from your data

Conversational Q&A

Ask anything — get cited, grounded answers

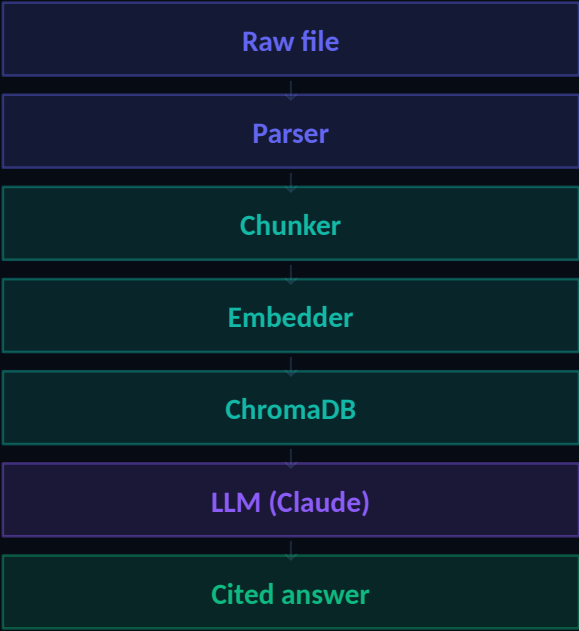

Drop file → AI parses → Vectors stored → Ask question → Cited answer

Built to scale. Designed to ship.

TECH STACK

Frontend	React 18 + Vite + Recharts
Backend	FastAPI + Uvicorn (Python 3.11)
AI Model	Claude Haiku 4.5 (Anthropic)
Embeddings	SentenceTransformers (local, free)
Vector DB	ChromaDB (persistent, local, free)
Parsing	pandas + PyMuPDF + python-docx

*"The missing intelligence
layer for India's
business backbone."*

Built in 30 days. Demo-ready on day 5.

Week 1 May 15-21	Week 2 May 22-28	Week 3 May 29-Jun 4	Week 4 Jun 5-Jul 4
Core Pipeline • FastAPI + file upload • Parser (CSV, PDF, DOCX) • Chunker + ChromaDB • Claude Haiku integration • Working MVP	AI Insight Layer • Auto-summary engine • Chart data extraction • Chat Q&A endpoint • Citation system • Multi-file support	Frontend & UX • React dashboard • Upload zone animation • Recharts integration • Chat UI with streaming • Mobile responsive	Polish & Submit • Demo data prep • Error handling • Documentation • PPT deck • Submission on Jul 4

Judged on 5 criteria. Scored on all 5.

Innovation	Zero-config multi-format BI — no competitor combines all layers in one tool	10/10
Real-world problem	63M Indian SMBs, ₹0 access to data intelligence — visceral, documented pain	10/10
AI Automation	End-to-end: ingest → chunk → embed → retrieve → generate → cite. Zero manual steps	10/10
User Experience	Drag, drop, done. Dashboard in 90 seconds, chat interface, no training required	10/10
Scalability	Vector DB + API-first backend. Handles thousands of users with zero architecture change	10/10

Solo Build

1 developer

4 weeks

Full-stack + AI

That is the story.

MoGenAI

Every business deserves to understand its data.
